TO SYLVANUS URBAN,  
OF THE GENTLEMAN'S MAGAZINE.

I R,

IN your Magazine for the Month of March last, Page 124, you have published a Letter sign'd Theophilus, wherein that Correspondent of your's charges Milton, the greatest Poet that ever appeared in the World, and the Glory of our Nation, with Arianism, in the Words following; 'Whether he (Milton) was a Christian or could scarce be determined (I believe) by any thing that occurs in his Poem; much less could one determine, that way, what Self he was of; for he seems to shape his Religion so, as to give the most scope for the Exercise of his own fine Imagination, and to leave the greatest Room for Scenery, and Amusement; but whether for that Reason or I will not say, he has certainly adopted the Arian Principle into his Paradise Lost.' The same Letter Theophilus criticizes several of Paradise Lost, (which, by the by, have been well defended by another of your Correspondents, out of Mr. Addison's Spectators) and cites the passages, which, as he supposes, make good his Crimes; but he has thought fit to leave this Charge of Infidelity upon our Poet, quite unsupported by any citations; from whence one would be apt to conclude, that Theophilus is some concealed Popish Tool, to deter well meaning People from reading a Poem wherein the Idolatry and Superstition of the Heathen and Popish are exposed with all possible Strength and Beauty, would brand it with the odious Mark of Infidelity.

Therefore Theophilus would clear himself from Suspicion, he must within three Months from Date of this Letter, define what he means by the Arian Principle, and then produce some Passage from Paradise Lost, to prove that Milton has introduced that Principle into that Poem. I am,

URBANUS SYLVAN.

Leighborn, July 8. O. S.

THE last Advices from Corsica say, that the Malcontents have delivered a Memorial to the Duke of Boissieux, wherein they set forth, that after long Consideration, they cannot resolve to return to the Dominion of the Genoese; but that as they are not acted by a Spirit of Independency or Rebellion, they are ready to pay their Submission to any Power that will accept it. A Dozen Lorainiers being pursued the other Day by the City Guard, and 11 of his Catch-Poles, fired upon them, and laid 9 of 'em dead upon the Spot, after which he laid the two others and the Sergeant, bound to Trees and shot them to Death, which done, the Defectors retir'd, and cannot be discover'd. An Order has been dispatch'd to Cardinal Aiberoni, of Ravenna, with Orders to release the Adversaries of that Archbishoprick, whom he had caused to be clapp'd in Prison.

Madrid, July 8. N. S. Don Sebastian de la Quadra, Secretary of the Universal Dispatches, has been desired Minister of State. Letters of the 18 Instant from Malaga say, that the English Fleet consisting of 10 Ships of War, passed by that Port, steering for the Coast of Minorca, where it was to put a Regiment of Foot ashore which it took on board at Gibraltar. They write from Barcelona, that the English Consul has hinted to the Merchants and Captains of the City, his Countrymen, to be upon their Guard, and to their Effects in Places of Security.

Venna, July 15. O. S. The following is a more particular Account of the late Insult upon Count Seckendorf, than has yet come to Hand.

On the 10th the Populace knowing that the Count de Preysing, who brought the News of the

Victory at Cornia, was to come that Afternoon thro' the City from the Court, assembled in all the Streets he was to pass thro', and particularly before Count Seckendorf's House; and while they waited for the Count de Preysing, they gave the foulest Language to this State Prisoner, and not only so, but broke all his Windows with Stones, &c. and even insulted the Guard, so that M. de Milburg was forc'd to send for 70 Men more; yet tho' he made 10 Men advance to 'em with Bayonets screw'd to their Muskets, by which 6 or 7 of 'em were wounded, yet the Mob continued their Insolence; and tho' the Officer sent for a Party of Cuirassiers and posted them at the Count's Door, yet they were more Furious than ever. The Count de Preysing passed thro' the Coal-market about half an Hour past 9 at Night, when the Mob was in the Height of their Fury, and it was supposed, that when they had seen him, they would have retir'd, but they staid before Count Seckendorf's House till 2 in the Morning, when they dispersed; but met again at 5 in the Evening, and nobody knows what Mischief they might have done, if Cuirassiers had not been immediately posted at the proper Places, and if the Count had not been sent privately away.

The Russian Minister here has received an Express, who, 'tis said, has brought Advice, that General Munich arrived the 24th of June O. S. before Bender.

Extract of a Letter from Nantes, dated July 18. O. S.

'We have received Advice, that the Crew of the Ship called the Conqueror, which went to Guiney to take on board Gold Dust and 150 Negroes, mutiny'd on Epiphany Day last about 100 Leagues from Cayenne; that Capt. Bernard, the Master, who commanded the said Ship, was murdered; as was also the Mate, the Lieutenant, and the Captain's Brother; that when they were arrived about 80 Leagues from Cayenne, the Rebels killed four more of the Crew, together with some of the Negroes, and put the rest of them ashore; that then going into the Long Boat, to the Number of 8, they arrived at Cayenne, after having been obliged by Hunger, to cut the Throat of one of their Companions; that they there told so plausible a Story of their Distress, that it gain'd Credit, and they were at full Liberty for a Month, till 4 Negroes, whom they had taken in a Wood, knowing them, raised a Suspicion of them by their Cries; and having afterwards discover'd all that had passed, the Villains were committed to Prison, where they confessed their Guilt.'

Paris, July 21. O. S. The City of Lyons has purchased of the Heirs of M. Bret, the Intendant of Provence, the fine Collection of his antique Medals of Gold, Silver and Brass, for 20,000 Livres, to be placed in the Library of that City, together with the fine Cabinet which the City bought of M. Laine, late Director of the Mint at Lyons. There are soon expected at the Seminary of the Foreign Missions at Paris 4 Chinese, who are come from their Country to embrace the Christian Religion, and they are to go from hence to Naples, where a Clergyman of this Kingdom has establish'd a particular Seminary to receive such Chinese as shall be inclined to come to Europe to be instructed in the Faith: The View of this Establishment, is afterwards to send back those Chinese into their own Country to preach the Gospel there; and 'tis hoped they will do more Good there than the Europeans, because they have the Language naturally, and are more perfectly acquainted with the Manners and Customs of the Country.

A Book is imported hither, said to have been printed in Holland, which makes a very great Noise. 'Tis a Treatise to prove that Usury ought to be licensed in a State, and that 'tis only censurable when 'tis practis'd upon the Poor. As the Principles contained in this Book have been thought very dangerous at this Place, Care is taken to prevent its being more common.

Arnheim, July 26. O. S. The King of Prussia, with the two Princes his Sons, his Generals and other Noblemen in his Retinue, arrived here Yesterday in the Afternoon from the Castle of Middagten, and after reviewing a Regiment of Horse without the

Town, set out immediately for the Castle of Mooyland near Cleves. As his Prussian Majesty keeps incog. he would not have the Guns fired here upon Account of his Arrival, nor any other publick Honours paid him.

The Lords of the Admiralty have directed the Lieutenants who are employ'd on or about the River Thames, in procuring Men for his Majesty's Ships which are fitting out, not to impress the Masters of any small Boats, commonly call'd Peter Boats, employ'd in catching Fish on the said River, for the Supply of this City.

In the Garden is a Basin exceeding beautiful, made out of one Block of White Marble 10 Feet Diameter, finely Fluted inside and outside, set upon a Pedestal (adorned with Basso Relievo) and Steps, in which was four Hogheads of Punch. The Nobility and Gentry walked round and drank out of it, and were succeeded by a Concourse of People, who drank out of it also, accompanied with French Horns, loud Huzzas, and many other Acclamations of Joy. The Country People, who flocked in great Numbers, had Tubs of Punch carried without the Front Gate to them, where there were Tables and Benches erected for that Purpose, but had the Honour of his Grace's Permission to be in the Garden to see the Illumination and Fireworks, which were exquisitely fine, and executed with the utmost Nicety and Dexterity. The Illumination form'd a Circular Avenue, which led to Pillars representing those of an Iron Gate; Pedestal and Balls included 24 Feet high, having 86 Lamps apiece, Distance from each other 25 Feet, the Whole making a Visto; at the End of which was a beautiful Obelisk 58 Feet high, with a Star on the Top of it 5 Feet Diameter; the Obelisk, Star and Pedestal, illuminated with about 200 Lamps, and adorned at proper Distances on each Side, with 12 Banners of divers Colours, projecting 4 Feet, with the Coat of Arms, Cyphers, or initial Letters of the Marquis's Christian Names, Surname and Titles, in Gold and Silver, and Coronets of the same: The Lamps were lighted at 9 in the Evening, and made a glorious and magnificent Appearance. The Fireworks begun with a Discharge of small Brass Cannon, and was succeeded by Line Rockets or Runners, Wheel Rockets or Givandolas, two at a time; one hundred Sky Rockets of all Sizes, loaded with a surprising Variety of Fireworks, as Stars, Gold and Silver Rain, Serpents and Crackers, some Dozens of

them being two Pound Weight; these were succeeded by Fire Launces, Pumps and Fountains, set quite round the Portair, and on each Side some large ones shooting Fire Balls, and imitating Bombs in the utmost Perfection.

There was also a curious and entirely new Machine representing the Sun, at each Beam was fasten'd a Rocket, which cast forth beautiful Rays, and instantly lighted them all, it lasted 5 or 6 Minutes in full Lustre, and the Whole destroyed at once with various Reports from the Ends of the Rockets. This was no sooner ended but a large Mine was sprung, that shot an infinite Number of Serpents flying to and fro of different Figures in the Air, and running Ground and went off with a Bounce each of them, and so concluded with a universal Satisfaction and Applause.

On Saturday last Prefs Warrants were delivered to the several Constables for the City and Liberty of Westminster, in order to Prefs all idle, lurking Sailors and others, in their several Districts.

On Friday last about 6 o'Clock in the Evening, a young Woman well dressed, flung herself into Rosamond's Pond in St. James's Park, with an Intent to drown herself, but a Gentleman going by just in the Interim, went in and brought her out, and she was afterwards carried to the King's Head in Petty France, and proper Means being used, she recovered, but would not confess the Reason of it.

WHEREAS on Tuesday the 21st of March last, a Dutch ship, named the Anna and Helena, Capt. Wagenaar, Commander, was stranded in Bigbury Bay in the County of Devon, laden with Wine, Brandy, and other Goods, the greatest Part of which Cargo was plundered and carried off by great Numbers of Persons, who assembled in a riotous and tumultuous Manner, armed with Axes, Hatchets, Crowds of Iron, and other Weapons, and who cut several Holes in the Deck and Sides of the said Ship, and beat the Master, notwithstanding the Assistance given by the Gentlemen of the Neighbourhood, and the Officers of the Customs, who were at that Time present.

#### Concerning Gleets and Seminal Weaknesses of all Kinds.

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weaknesses, whether occasioned by too severe purging for Venereal Injuries, violent Strains, Pollution sul, or any other Cause whatever; and that they are dangerous in their Consequences, as well as difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, infect the whole Nervous System, often bring on Hectick Heats, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleets, Seminal Effusions, Involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diabetsis, or Incontinency of Urine, or Difficulty of holding their Water, would doubtless be glad to meet with a certain, safe, and speedy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent BALSAMICK RESTRICTIVE ELECTUARY, now published for a general Good, after having for many Years been experienced never once to fail perfectly curing the most Stubborn Gleets known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal Vessels, and Urinary Passages, which almost instantly cures, bringing to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY, is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weakness and Decay of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels to an immense Degree, inasmuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out; and all Persons fatigued with Gleets or Seminal Weaknesses of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very effectual, that they will be most agreeably surpris'd at it.

When a Medicine will infallibly accomplish such a safe, speedy and perfect Cure of such difficult Maladies, as Gleets and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it, and this, All who ever took it for any of the above-mentioned Purposes, have readily declared.

The Price is but 6s. a Pot, altho' for its absolute Efficacy, one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. Radford's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whosoever carefully reads will perfectly know, when the Gleet or Weakness he is afflicted with, succeeds a Venereal Injury, whether all the Malignity of the Foul Disease is entirely eradicated or not.

Note, Ask only for a 6s. Pot of Balsamick Electuary
